Service Regulations:

Service Regulations:

1. Notice: Please carefully read the User Manual before using the Headset.

2. Guaranteed replacement: Within the guaranteed period (7 days after purchasing), replacement or free repairing may be offered for product malfunction caused non-artificially under normal use, provided that the specific malfunction is tested and confirmed. Contact the authorized distributor for replacement handling.

- 3. Warranty: Within the period of warranty, free repairing service may be offered for malfunction caused non-artificially under normal use (one year warranty for the headset itself).
- 4. Repairing charge: One to three years after purchasing, the product may be repaired if malfunction occurs, but parts cost, transport freight and labor cost shall be assumed by the customer.
- 5. The following circumstances are not covered by the free warranty services, but we provide paid services:
- 1 The period of warranty expires;

- 2 The warranty card is altered, or serial number inconsistent;
- 3) Product damage caused by unforeseen factors or artificially:
- (4) Invalid warranty card but valid invoice (unless product may be certified within the warranty period);
- (5) Malfunction or damage caused by force majeure, such as earthquake, fire, flood, or thunder-strike;
- (6) Disassemble, repair or alter the product without our permission.

Explanations:

- 1. The purchasing date shall be subject to the date written in this manual or the invoice, or subject to the production date if no valid certificate is provided.
- 2. The subjective differences such as the tune and tone are not acknowledged as the quality problem.
- 3. The product shell, user manual and the package are not covered by warranty.
- 4. Headset stopped production shall only be provided with repairing service.

5. We will not undertake any liability for undertakings made by the distributor but not our company.

Waste electrical and electronic device

This product or products with symbols as follows should not be disposed with other family wastes when such products are end

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
